# Eco-Friendly Bagasse Products & Compostable Bags

## 100% Biodegradable & Compostable Products

Made from renewable sugarcane bagasse pulp and sustainable compostable materials.

Trivik NexTrade LLP offers eco-conscious food packaging and compostable bag solutions for restaurants, cafés, caterers, retailers, distributors, and export buyers worldwide.

# Sustainable Solutions for a Greener Future

At Trivik NexTrade LLP, we are committed to delivering biodegradable and compostable food packaging solutions crafted from sugarcane bagasse pulp and other sustainable compostable materials. Designed for the modern world, our eco range serves a wide spectrum of needs across food service, hospitality, retail, and export markets—offering responsible alternatives to plastic without compromising on quality or performance.

Our sustainability journey is rooted in innovation, responsibility, and a deep respect for nature. From renewable raw materials to complete compostability, our products help reduce carbon footprint, minimize waste, and support a circular economy. By choosing our solutions, you join us in building a cleaner, healthier planet for future generations.
